MANAGEMENT DISCUSSION AND ANALYSIS REPORT

a. Industry - Structure and Developments.

Sorbitol and Starch industries in India are very much fragmental and scattered throughout India. The growth in demand for Sorbitol is promising. As for as Sorbitol is concerned at present our company is only one plant in South India. When it comes to starch, for the last 2 years we observe that the consumption of Starch in south has increased. There is steady growth and demand for these products as 60% of starch goes to textile, food based industries. The demand is there throughout the year. At present the demand for both Sorbitol and Starch is promising on a continued basis.

b. Opportunities and threats.

The company does not see any opportunities but has been facing the threat of import of Sorbitol.

c. Out look

The outlook for the company's products is reasonably good but the management feels that the company can achieve better results only if it can reach its full capacities which is possible only when the company is provided with sufficient working capital.

d. Risks and Concerns.

Sorbitol and Starch being agro based industries there is no risk of product obsolescence or steep fall in demand by way of product substitution. Therefore your directors do not foresee any major risks and concerns, except as discussed else where in this report, in the near future.

e. Internal Control Systems and their adequacy:

The company has developed adequate internal control and reporting systems and is well placed.

f. Financial / Operational performance:

This has already been discussed in this report.

g. Human Resources / Industrial Relations :

The company employs about 250 people both in Sorbitol and Starch divisions including Head Office. The Company enjoys very cordial relations with the staff, workers and with workers union. The industrial relations continued to be cordial during the year under review.
